

**SE 216 – SOFTWARE PROJECT MANAGEMENT**  
**PROJECT NEEDS DOCUMENT**

**PROJECT NAME:**stoKING

**GROUP MEMBERS:**Onur Ölmez,İlhan Mert Çetin,Kaan Aydın

#	SOFTWARE NEEDS	DESCRIPTION
	Windows	We used windows settings and features to develop this project. You should have at least windows 7 you can use this program very easily.
	IDE	The team needs Apache Netbeans IDE to develop user interface and coding parts.
	Database	Mysql will be used to store product and user information.
	Source Control Tools	It should be used to track the project's and codes' progress on a regular basis. This is why Github is appropriate to employ due of its functionality.

## SE 216 – SOFTWARE PROJECT MANAGEMENT

### PROJECT NEEDS DOCUMENT

	Laptop	We used laptops to writing codes.If we want to change some parts we should use our laptops to do it.Onur Ölmez is responsible for problem solving and fixing codes immediately.
	Mobile Phone	Mobile phones are neccessary for us especially because we should check our e-mails if there is a problem.This system send mails to producers of the program if there is a problem in the system. Kaan Aydın is responsible for checking e mails.
	Monitors	This system should be open in some monitors and we should watch every parts of the system.İlhan Mert Çetin is responsible for this situation.
	Mouse	We use mouses for the selection of every button.Every person who join this project need to mouse.
